

## Heritage Experience • Historical Tour

Day 1-5 (length of tour can be tailor-made)

Experiential Education all about learning by doing. Students in Pak Lap will be immersed in an all-round cultural experience. CNH aims to strengthen cohesion, patriotism and shared beliefs amongst students and our Chinese community. By amplifying their sense of belongingness through flag-raising ceremonies and leadership Initiatives, the programme is designed to cultivate students' moral integrity, humility, and abiding by the Chinese words of wisdom, journeying themselves to the profound understanding of our national identity.

Steeped in history, students will retrace the ancient footsteps of Pak Lap and Tung A, uncovering traditions of this local village, and learn how they have passed on its heritage and customs from one generation to another. From historical exhibits, to guided heritage tours, to trying authentic, local delicacies; CNH aims to create a comprehensive cultural immersion. Through these unique experiences, we hope to inspire students in gaining valuable insights to nationalism, cultural literacy and understanding their responsibility to their country, nation and to the society.
